## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 8, 10, 12, 13, 22, 25 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Mahaffy (EP0934990A1) as applied in paragraph 3 of the nonfinal rejection mailed 05/23/2007.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Art Unit: 1791

5. Claims 4, 5, 26, 28 and 29 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Mahaffy as applied in paragraphs 6 and 7 of the nonfinal office action mailed 05/23/2007.

6. Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mahaffy as applied to claim 1 above, and further in view of Baetzold et al. '913 as applied in the nonfinal rejection mailed 05/23/2007.

***Response to Arguments***

7. Applicant's arguments filed 11/20/2007 have been fully considered but they are not persuasive.

As to the argument regarding application temperature, Mahaffy clearly discloses that the adhesives "may be applied at temperatures of 200 to 300°F" ([0033] in Mahaffy. As to the argument that the heat stress value, the heat stress value disclosed by Mahaffy is "at or above 115°F (see [0033] and [0042] of Mahaffy). One reading the reference as a whole would realize that Mahaffy is not limited by the examples due to the content in these paragraphs.

In any event, Mahaffy does not disclose applying the adhesive at 250°F for the exemplary heat stress test. This was the application temperature to test peel and shear strength and cloud point, which required elevated temperature application ([0039], [0040] and [0042]).

The arguments on page 6 and 7 (Remarks mailed 11/20/2007) depend on the arguments above and have thus already been addressed.

Art Unit: 1791

As to the argument regarding Baetzold, the reference applies to all additives in packaging hot melt adhesives.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
